65-UT-AA80 Series

Type: 8" TFT color

Resolution(pixels): 800*600

Max Colors: 65536

Touch screen: 4096x4096 resistance type

RAM: 32M SDRAM

Storage device: 4MB NOR FLASH / 32M NAND FLASH

Brightness: 280 cd/m²

Port: COM*3, USB*2, 10/100M Ethernet

Panel view : 162.0mm*121.5mm

Dimensions(W*H*D): 230mm*179mm*48mm

Panel material: Aluminum alloy mould

Power supply: DC15V-36V

Weight: 2.5 Kg

Color: Black

Operating temperature: 0°C~60°C

Storage temperature: -20°C~70°C

Ratings: IP65(Front panel)

Language (GB2312-80 codes) : Chinese/English/Russian

Certificate: EN55011 ClassA / EN6100-6-2

Data base: real-time data, manage the historical database

Programme: configuration, C language programmable

Network communication: RS-485, Ethernet, Modbus, TCP/IP and so on

Drive: PLC and other expansion module

Other functions: U disk update, historical database U disk output, support multi-serial and Ethernet ports meanwhile contact different device
